March 2025! Newsletter

So much winning! But we can't rest! We need to keep an eye on our Texas State Representatives, and others representing Texas and ensure that the President's mandate is taken into consideration. Right now, in the Statehouse, as of the end of February, more than a quarter of the session (which is 150 days without Special Sessions) is gone. While the Texas Senate has passed a number of great bills, the Texas House has only done one thing, recognize that great country singer (who we hope isn't on the Diddy list), Beyonce. Well, Speaker Burrows has empowered a number of Democrat vice chairs and given them a \$5000 stipend. Don't let anyone tell you that they got rid of Democrat chairs. To keep everyone else quiet, happy, whatever, Burrows has put a lot of our tax dollars into increasing the office expenses for all the State Reps-your tax dollars at work/not!

Congress critters in Texas are also not doing Texas any favors. Jasmine Crockett (30th Dist.) has insulted conservatives by saying they, "don't want to read about facts" and is rooting for Canada and Mexico in their tariff

war with President Trump. Meanwhile Dan Crenshaw has apparently threatened journalist Tucker Carlson. You can't make this stuff up!

Call, e-mail, write a letter, go to the Capitol. Don't wait for someone else to do it!

Kathy Rogers, TCRWC President

March SPEAKER!

On **March 11**, at 11:00am at Golf Crest Country. Program is \$25. Konni Burton,

formerly of Texas Senate District 10, and current CEO of, [The Texan](https://thetexan.news/site/about.html) <https://thetexan.news/site/about.html>. Konni Burton is Founder and CEO of *The*

Texan. Previously, she was a grassroots activist who worked on numerous campaigns for local, state and federal races. Konni then went on to run for office and was elected in 2014 to serve Tarrant County's Senate District 10 in Austin. Her experience as a grassroots activist, elected official, and taxpaying citizen provides a unique and valuable perspective on the political landscape in Texas.

Go to www.TCPatriots.com/Events or Call/text RSVP 281-455-0646, Frances Morrell by Thursday March 6 at 5 p.m. to reserve your space!

Guest Column on your Health: by Katrina Evenhouse

Now that RFK is over HHS to MAHA (Make America Healthy Again) I am praying he will do away with GMO (genetically modified organisms) foods.

Right now, Big Pharma and Bill Gates are destroying our Farmlands by taking their land and destroying our good organic food. Big Pharma is going after the small Ranchers, and killing all our cows, chickens and any kind of meat producing animal. "Big Ag" is in on all this. I watched Ted Nugent recently and they are going after the wild life now. Deer, Fowl and anything we hunt for food. They want us to eat petri dish meat and foods made from insects. Our bodies do not digest this kind of modified version of food. We need to fight for food transparency. Big agriculture, food and chemical companies do

not want to label our food. The DARK ACT (Deny Americans the Right to Know) is just one example. We need to know what we are eating and I encourage everyone to contact your Senator and Congressman, Federal and State.

The Organic Consumers Association fights these companies like Monsanto/Bayer and others against lab grown meat, so much more.

www.Advocacy.organicconsumers.org. I personally want all my food non-GMO produced without genetically engineered ingredients.

Most (I have read up to 90%) of your, soy, cotton, canola, alfalfa, papaya, potato, sugar beet are genetically modified versions.

I try to buy Organic and Non-GMO when buying fruits and vegetables. Here is a little cheat sheet for you to go by.

How to read bar codes and PLU's.

If the first 3 digits of the bar code are:

- 890.....Made in India
- 690,691,692.....Made in China
- 00-09.....Made in USA and Canada
- 30-37.....Made in France
- 40-44.....Made in Germany
- 471.....Made in Taiwan
- 49.....Made in Japan
- 50.....Made in UK

Fruits and Vegetables: If the number starts with a

- 4...4 digits only.....Conventionally Grown
- 9...5 digits.....Organically Grown
- 8...5 digits.....Genetically Modified

The #8 code is not yet required by law. Buy organic to avoid GMO food.

Here are some websites that you can do your own research

www.gmofreeusa.org

www.toxicfreeusa.org

www.foodbabe.com

Organic Consumers Association

Feel better soon,

Katrina Evenhouse

Dan Davis, Mayor of Manvel, made a wonderful presentation to our group on Feb. 11. He is a true servant-leader and even prayed over us at the end of his talk. He answered lots of questions and really enjoyed engaging with the audience. As the 2nd fastest growing city in Texas, Manvel has a lot to look forward to, with 24 subdivisions in some stage of development at the current time.

Tri-County Call to Action!

Our resolution was sent to Texas State Representatives Cody Vasut, Terri Leo-Wilson, Dennis Paul, Jeff Barry and Greg Bonnen. Our resolution stated:

We, the patriots of Tri County RWC, respectfully request all members of the Texas Legislature respect the vote of the people nationally for Donald J. Trump, and the wishes of the Texas Republican grassroots for conservative legislation, as voted on at the 2024 Republican Convention. Please support the Legislative Priorities as listed herein:

Meet Jonda Bradley Tri-County Secretary 2025

Jonda has been interested in politics since at least 2008 when Obama seemed to be dividing the country and telling untruths. She joined Tri-County about three years ago. She is also the Secretary for the Bay City Corvette Club. She was also President of Bay Area Realtors in the 90's. She was a Realtor for 10 years and was an Escrow Officer before she became a Title Officer. From 2006-2020 she was with Great American Title. Her hobbies include reading, studying the Bible, road trips with the corvette club, and her grandchildren, who are mostly grown. She lives in a patio home in Bay Forrest. They are on a circle and enjoy visiting with her neighbors. Her husband, John, was a mortgage loan officer, retired a year ago, December. Graduate of A&M. Vietnam Veteran.

Served for a year in field artillery and came home. They have been married 41 years (April 7). Between them, they have 6 kids, like the "Brady bunch" but they're the Bradley bunch.

The three most important things she'd like to see the Club do 1) fundraise for the candidates, 2) pass important resolutions 3) since she enjoys hearing from Elected officials, she'd like more to attend our meetings.

Regarding Trump's agenda, her highest priorities are 1) stopping illegal immigration, 2) brining businesses back to America, and 3) ending transgender madness, and 4) improving the economy. She doesn't want our children to be brainwashed. She loves that Trump is cutting the waste. She believes that a lot of politicians are taking a cut off the top of some of the waste.

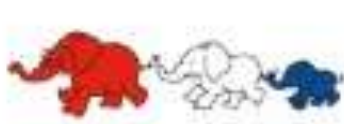

She watches Fox News on and off. She still has friends from high school who are conservatives who she follows on Facebook. Lots of her neighbors are also conservatives. She attributes her trim figure to losing weight after

hurricane Harvey and then losing her son-in-law in 2019, and her daughter (from a different family) to a head injury. She also had a house fire in 2023 and spent all last year rebuilding and moved back in in 2024. If you want to know how to handle floods or fires, just ask her.

She worked with Colleen Sullivan for many years and they have been friends for many years.

She had 6 kids and 9 grandkids. She is a woman of great faith and perseverance. She heard about Burst Savings, where you try to live on only one income. It really works for her and her husband! That's her advice, although not all people can do that. Just a bit of discipline is needed, for example, having part of her paycheck go directly to the investment company, so she wouldn't get her hands on it first!

Many thanks to Jonda for putting up with the questions and for being the Secretary of Tri-County! She is a treasure. Say "hi" at the next when she's not busily taking notes.
